Others: If you are breastfeeding a baby, please notify us of such when you apply. The interval for examinations is once a year. You might not be able to have an examination depending on your physical condition or the results of the general check-up on the day.

Inquiries: Kenko-Zoshin-Ka (Health Care Section) Tel. 0742-34-5129

Receive Vaccinations

For the Sake of the Most Important People to You

Three Important Purposes for Vaccination

1. To prevent infection
2. To prevent the development of serious illness even if infected
3. Not to pass diseases on to others.

Get Vaccinated before You Get Sick

Free vaccinations are available during designated periods for those whose ages qualify for routine immunization. Please receive vaccinations during those ages vulnerable to infections.

Depending on the disease, there may be a susceptible time when you may get worse quickly. So, do not think “I still have time get a vaccination.” Think “I should get a vaccination already.” Be aware of earlier prevention.

*For children, get them vaccinated when they are healthy.

If You Miss the Opportunity

Many vaccinations are divided into several parts. You will have immunity after receiving all parts. So, if you do not complete the necessary number of inoculations, take the rest as soon as you realize it.

When it's a qualifying age, free vaccination is available. Don't think “It's too late.” Think “I still get a vaccination.” Get vaccinated as soon as you can.

When You Are Not Sure Whether You May Have Developed an Infectious Disease

In such cases, please receive the vaccination again. Even when you already have immunity, the degree and frequency of side effects does not increase.

Inquiries: Hoken-Yobo-Ka (Health Protection Section) Tel. 0742-93-8397 Fax. 0742-34-2486
