## **Confronting of Fires**

**Twice the number of fires Nara experienced at this time last year have  
Already taken place. Some people lost their lives in the fires.**

**Inquiries:** Somu-Ka, Shobo-kyoku (General Affairs Section, Fire Department) Tel. 0742-35-1199

**Peak seasons for fires are from winter to spring.**

Familiar items cause fires. Let's check once more. Many fires are caused by cigarettes, cooking stoves, etc. Many cases are due to ordinary things. Especially pay attention to cigarette butts. There has been a recently increase in fires caused by **lithium-ion batteries (mobile batteries, etc.)**. These batteries tend to short out and catch fire when dropped and or struck.

**Pay special attention when using fire in farming.**

### **Spring Nationwide Fire Prevention Campaign March 1 (Sat.) to March 7 (Fri.), 2025**

#### **Six Tips for Residential Fire Prevention and Protecting Lives**

- 1) Install heaters and gas or electric cookers with safety devices to prevent a fire.
- 2) Check residential fire alarms regularly and replace them every 10 years.
- 3) Clear and tidy up rooms, and use fireproof products to avoid fires spreading to bedding, clothing, etc.
- 4) Install fire extinguishers to put out fires before they spread and know how to use them.
- 5) Have evacuation routes and plans for the elderly and those who with disabilities
- 6) Participate in fire and disaster prevention drills, and take fire prevention measures in the local area through door-to-door visits, etc.

## Annual Women's Health Week: March 1 to 8

### Increases in Female-Specific Cancers

Breast cancer affects one in nine women. Cervical cancer often affects women between their 20s and 30s.

These can be detected early by screening, so please be sure to have a medical check once every two years.

### Get Regular Osteoporosis Checkups

Osteoporosis is a disease in which bones become weaker, making them more prone to fractures. It is especially common in postmenopausal women. Regular medical checkups raise your awareness of bone mass changes and help prevent disease. Nara City osteoporosis checkups are conducted every five years for those aged 40 to 70.

\* Medical checkups for the fiscal year 2024 finished at the end of February. They will start again from July 1, 2025.
